The rules are really simple:

- Sell 100 numbers for \$2 each (you can increase this amount if you wish; many supporters have sold the numbers for \$10 each raising \$500 for their fundraising and \$500 for the winner).
- Write the players name on the number they have chosen.
- Once all the numbers are sold, you can use a number generator (an app or just google a good one) to select the winning number.
- The winning number drawn gets \$100 CASH (based on \$2), and you raise \$100 straight away for your fundraising! It's a lot of fun and people always have a couple of lucky numbers in mind.
